

# Lakes Region Planning Commission

LAKES REGION PLANNING COMMISSION

103 MAIN STREET, SUITE 3

MEREDITH, NH 03253

Annual Meeting  
June 28, 2010

**Featured Speaker**  
**Scott Cassel**

Communities in the Lakes Region recognize the value of environmental quality and are committed to its success. One of the largest annual collections of household hazardous waste in New England occurs here each summer through the voluntary collaboration of 26 communities.

This year's Annual Meeting features an environmental pioneer, Scott Cassel, Executive Director of the Product Stewardship Institute (PSI). Mr. Cassel will present bold new ventures to dispose of unwanted items that encourage those who design, produce, sell, or use a product to take responsibility for the 'cradle-to-grave' lifecycle or stewardship of the product. PSI has successfully used this model with producers of paints, electronics, food, and others.

Scott is an enlightening speaker, and the creative force and founder of PSI. With more than 25 years in the private, public, and non-profit sectors, Mr. Cassel has garnered an impressive record of accomplishments, including stints with the Massachusetts Water Resources Authority, New Jersey Department of Environmental Protection, the North American Hazardous Materials Management Association, and the Boston Business Journal, among others. Scott holds environmental degrees from M.I.T. and the University of Pennsylvania.

Mr. Cassel's message of the interconnectedness of people, communities, and producers in reducing environmental toxins and other unwanted products will be thought provoking and insightful. We invite you to join us in Meredith!
