

The Role of Municipalities in Regulating Groundwater Withdrawals

Public Meeting With the Members of the Legislature's Groundwater Commission

**September 22, 2010, 6:00 PM - 8:00 PM
Life Safety Building Conference Room
1035 Whittier Highway
Moultonborough, NH**

This meeting will present how the management of groundwater in NH can be improved as suggested by stakeholders at nine regional meetings in 2009.

The agenda will include a discussion of possible approaches to:

- Protect future water needs**
- Ensure the water supply is adequate to provide for water uses associated with new land developments, and are compatible with both other existing water uses and the protection of the environment.**
- Improve the role of municipalities in NH's groundwater withdrawal permitting process.**

This meeting is a follow-up to the meeting with the Lakes Region Planning Commission on May 13, 2009.
