A local committee working on possible solutions will present parking challenges at the West Rattlesnake Mountain trailhead off NH Route 113 in Holderness. The easy/moderate hike to the 1,260' peak of West Rattlesnake is extremely popular because it offers fantastic views of Squam Lake and the islands. This popularity raises safety concerns when parking spills-over from the parking lot the at the Old Bridle Path trailhead onto narrow sections of NH 113 with limited shoulders and sightlines.
