Ten Year Plan:
Excerpt from May 1, 2013 TAC Minutes

3. Transportation Improvement Plan

LRPC Commissioners met April 29 and unanimously approved the TIP recommendations developed by the TAC. The recommendations were submitted to NHDOT on April 30. TAC members provided input on the process as a whole and made suggestions to improve the process in the future including helping communities get needed information about their projects and the need for additional time to work through the process. It was expressed that bridge projects may require a different set of criteria since they tended to score fairly low compared to other projects. It was generally agreed that the electronic format for scoring projects worked well.
